 - a. Ap's - Songify, Talkapella,
7. Motivation
 - a. Work done? Safe games are ok – Wurdle, Who Wants to be a Millionaire, Unblock Me

How to Sync Google Calendar, Gmail, and Contact with iPad – a Step by Step Guide

1. Tap settings on your iPad home screen
2. Tap Mail, Contacts, and Calendars
3. Tap Add Account
4. Tap Microsoft Exchange (on the top)
5. Enter your full Google's email address on the Email field (I use my @gmail.com account here)
6. Leave the domain blank
7. Enter your Google account again on the Username field and the password (I use my @gmail.com again here)
8. Tap Next. You'll see an error message. Just press cancel (or accept) and you'll be taken back to the previous screen
9. A new field, the Server field, will now appear
10. Enter m.google.com
11. Tap Next again to retry
12. Now everything should work and you can have the options to sync the Calendar, Contact, and Mail there.

Enjoy and just wait until iPad automatically syncs the Google Calendar, Contact, and Gmail for you!
